

# LADYBIRD 41

## ELECTRIC MOWER

**Awarded the Svan  
label for being  
environmentally friendly**

***At just 12kgs it can easily hang inside a cupboard when not in use. You don't have to charge any batteries or fill it with petrol and your neighbours will not be disturbed by the noise of the motor. Environmentally friendly and easy to use, Ladybird is the ideal choice for small lawn areas.***

### FEATURES

Power:	1300W
Deck:	41cm ABS Deck
Drive:	Push
Cutting Options:	Collect or rear discharge

### HINTS AND TIPS

- Ideal for small town lawns (ie housing estates)
- For first cut of the season ensure your height adjuster is set at the highest level possible then lower it on future cuts to suit your height preference
- Work away from the power source at all times and be cautious not to cut the electrical cable with the mower blades
- Always use an RCD protector adapter on electrical equipment
- We recommend regular servicing with an authorised Stiga Service Dealer to ensure the best standards from your mower
- Inspect your lawn before mowing and remove sticks, rocks and other items that may damage the blades
